# ABOUT US

Rhino Pools is a subsidiary company and belongs to a group of companies that have been working with fiberglass since 1998.

## 2 PRODUCTION SITES ARE WORKING ON:

---

### FIBERGLASS CERAMIC POOLS

Our company has been producing fiberglass pools for over 20 years. In this time, we have developed a unique approach to the production process that allows us to produce high-quality products using only the highest quality raw materials.

Our pool factory produces over 700 pools per year, which are sold through the dealer network throughout Europe, as well as in the East and the Middle East. Today we can proudly say that we have more than 10,000 happy clients enjoying our pools.

---

### ACRYLIC BATHTUB SYSTEMS

Bathtubs are one of the oldest products in the company's product line. Due to the long-lasting know-how, new and modern technologies as well as skilled employees we have developed high-quality ergonomic, modern design products. In manufacturing process, we use only the top-quality English company LUCITE cast sanitary acrylic. For massage systems we use components made by KOLLER, the world-renowned Austrian company.

---

### MOLDS AND MODELS

Over the long years of operation, the company has accumulated vast experience in the mold manufacturing. At present, we are manufacturing molds not only for our needs but also for other enterprises engaged in manufacturing of fiberglass plastic products. Working with foreign partners we have manufactured a large number of molds intended for wind power industry. We are manufacturing not only manual laminating molds but also molds for vacuum laminating with film and vacuum back-sided molds.

---

### WOOD HEATED TUBS

Different sizes and shapes are available, from 180 cm to 200 cm internal diameter, with integrated and separate heating ovens. Available in all color options. High quality hot tubs are manufactured and assembled in several locations in Kaunas, so there is no compromise in the market. Special grade gelcoats are used in the production.

---

### OTHER PRODUCTS

A lot of experience in production of fiberglass plastic products for various purposes, namely:

- Manufacturing of boats and motor boats
  - Manufacturing of various reservoirs
  - Products dedicated to windmill industry
  - Parts and components for machine industry and shipbuilding industry.
-

# TECHNOLOGY

Our pools are made to last.

Production begins with manual fiberglass forming using the highest quality materials.

12-layer wall structure, extra ceramic and fiberglass reinforcement layers, double bottom and sprayed-over foam insulation guarantee a long lasting product, which is leakproof forever!

The production of fiberglass products started back in 1998 and we have developed extensive experience over the last 20 years.

All pools pass strict quality control and we can proudly guarantee that Rhino pools are leakproof for life.

# POOL LAYERS

# POOL LAYERS AND PROPERTIES LIST:

---

## 1 GELCOAT LAYER 1

first color tone with UV & osmose protection

---

## 2 GELCOAT LAYER 2

second color tone with additional osmosis protection properties

---

## 3 VINYLESTER GELCOAT LAYER

provides maximum resistance to chemicals and solvents

---

## 4 VINYLESTER GELCOAT LAYER 2

reinforced by fiberglass

---

## 5 VINYLESTER GELCOAT LAYER 3

has special ceramic reinforcement

---

## 6 RHINO CARBON SKIN

extra carbon fiber reinforcement layer that is applied to key places to increase rigidity

---

## 7 LAMINATED STEEL BEAM

for perimeter stability and rigidity

---

## 8 STRUCTURAL FIBERGLASS LAYER 1

---

## 9 STRUCTURAL FIBERGLASS LAYER 2

---

## 10 STRUCTURAL FIBERGLASS LAYER 3

---

## 11 PU FOAM

thermal insulation layer

---

## 12 STRUCTURAL HONEYCOMB LAYER

extra protection for pool flooring

---

# INSTALLATION

At Rhino Pools, we believe that every customer deserves the best!

That's why we've developed a plug and play solution for every customer — our special designed pool structure allows the pool to be installed with minimal intervention in your garden.

Fast and easy installation of the pool is possible only because of special designed pool structure of Rhino Pools Ceramic core, special honeycomb bottom structure and new Rhino Carbon Skin, high density PU foam, special Mat-combined structure.

You only need gravel to backfill the pool.  
Both in the bottom and sides!

**EVERY POOL HAS ITS OWN  
HIDDEN FEATURES:**

- Easy installation
- Do it yourself option
- No concrete bed required
- Only gravel backfill

# SOFT COVERS

WITHSTANDS  
UP TO 100 KG

FOLDABLE

HIGH DENSITY  
FOAM

ANTI FOG  
MEMBRANE

Soft Spa type covers for pools RIO, ENZO and JOY pool range. 4-5-piece foldable cover with lightweight aluminum frame can withstand 100 kg weight when mounted on the pool.

High-density foam with anti-fog membrane prevents heat loss and algae buildup. Soft cover is the best solution if you really want to save energy for heating and dramatically extend your season.

## USER GUIDE AND MAINTENANCE

- No drilling or installing needed: just lay the cover over the pool! Only hooks for the straps should be secured
- Keep the cover clean by occasionally rinsing it with water and appropriate chemicals.
- Withstands up to 100 kg
- Foldable
- High density foam
- Anti fog membrane

# TERRACE COVERS

WITHSTANDS  
UP TO 500 KG

INSULATED  
DECK

2IN1 COVER  
AND DECK

8X4M MAX  
POOL SIZE

Movable Terraces for our RIO, ENZO and JOY pool range allows you to cover your swimming pool in an aesthetic way, while the membrane underneath the cladding and insulation will prevent heat loss. Both a Deck and a safety cover, used all year round. Terrace covers combines the best in protection with the most space-saving design. The pool becomes a playground, a place to relax or an open-air dining area.

## INSTALLATION AND MAINTENANCE

- Lightweight system: 2 m track weighing 1-2 kg allowing installation by a single person
- Mounting time reduced by 50% compared to screwing or screwed clips: less time bending!
- Everything can be clipped on: track on stud, splitter in track, clips on track, Top Link on clips, Top Cube on track, etc...
- The boards are fixed by walking on them (by pressure)
- No drilling, no screwing: protecting hands

Monaco is an elegant and modern pool. Double sided steps allow comfortable entry, while bench between gives you enough space for lazy leisure. Special place to install underwater slat system makes Monaco PIT version universally customizable to your specific needs.

## HIDDEN FEATURES:

- Anti-slip steps
- 5-step entrance
- Slatted cover guidelines
- Uninterrupted swimming channel
- Slat system keeps water warm
- Slat system decreases water evaporation
- Slat system protects against objects entering the pool
- Slat system reduces chemical consumption

**MONACO PIT 1000**

# UNDERWATER STANDARD SYSTEM

The underwater standard slat system can be installed in pools from our Monaco and Antibes ranges. The standard set includes a 140 Nm-24-IP68 fiberglass roller with pool-wall fixings, a motor control key box, a fixing kit for roller tube straps, and a 110 x 65 mm aluminium beam for top-down wood support. This cover system works with standard, 10–12 cm water-level systems.

## HIDDEN FEATURES:

- Easy to install
- Keeps water warm
- Decreases water evaporation
- Extends the bathing season significantly
- Protects against objects entering the pool
- Reduces chemical consumption
- Underwater system makes the cover invisible
- Works with standart water level systems

# UNDERWATER BENCH SYSTEM

The underwater bench slat system can be installed in pools from our Monaco and Antibes ranges. The standard set includes a 140 Nm-24-IP68 fiberglass roller with pool-wall fixings, a motor control key box, a fixing kit for roller tube straps, and a 110 x 65 mm aluminium beam for top-down wood support. This cover system works with both standard and high water-level systems. The submerged bench above the slat system works perfectly as a sun deck.

## HIDDEN FEATURES:

- Underwater bench system provides a sun deck above the cover
- Easy to install
- Keeps water warm
- Decreases water evaporation
- Extends the bathing season significantly
- Protects against objects entering the pool
- Reduces chemical consumption
- Underwater bench system is applicable with high water level pool systems
- Bench can be replaced with stone cover

# ECOTOP

An ecotop slatted cover keeps your pool cleaner and safer while helping you maintain water temperature. A tremendous added value when used properly.

It's not just the practical aspect that matters. The esthetic finish is just as important. After all, a swimming pool is a place where you can relax and dream. Ecotop is the result of a search for proven T&A quality at an attractive price.

Only a low voltage cable between the support and the technical area is needed. The cover is operated with a key switch mounted on a console. Ecotop is the ideal solution for installing a slat cover without affecting the structure of your pool or terrace.

The cover meets the legal requirements for swimming pool safety and therefore complies with the norm NF P 90-308. In closed position it is important to secure the cover using the safety buckles on both sides of the cover (one side for installations with a bench). When used correctly, one can meet the weight resistance goal of 100 kg.

## **HIDDEN FEATURES:**

- Easy to install
- Keeps water warm
- Decreases water evaporation
- Extends the bathing season significantly
- Protects against objects entering the pool
- Reduces chemical consumption

ECOTOP ABOVE GROUND COVER

ECOTOP ABOVE GROUND COVER

# AQUATOP

The AQUATOP is an above-ground compactible cover that comes with white or sand-coloured slats when not using a bench. With a bench cover, any type of slats can be installed. The AQUATOP cover set includes stainless steel supports, a remote-control system, and an anodised aluminium roller tube with integrated roller motor.

The AQUATOP cover complies with NF P 90-308, meeting the legal requirements for swimming pool safety. In the closed position, it's important to secure the cover using the safety buckles on both sides (or only one side for installations with a bench). When used correctly, this system has a 100 kg weight resistance.

The slat cover is installed on the edge of the swimming pool with a support on both sides. A limit switch comes as a standard feature with all Aquatop covers to guarantee the motor turning off once the cover is fully opened/closed. In order to preserve the original color of the wood, we advise you to treat it on an annual basis.

## HIDDEN FEATURES:

- Easy to install
- Keeps water warm
- Decreases water evaporation
- Extends the bathing season significantly
- Protects against objects entering the pool
- Reduces chemical consumption
- Hidden roller system
- Remote control

# RHINO TUBS

## WITH INTEGRATED HEATING SYSTEM

### RHINO TUB 180

INTERNAL DIAMETER	180 cm
EXTERNAL DIAMETER	200 cm
HEIGHT	105 cm
WATER CAPACITY	1650 litres
HEATING	integrated wood stove
PEOPLE CAPACITY	6
AIR MASSAGE SYSTEM	15 jets

### RHINO TUB 200

INTERNAL DIAMETER	200 cm
EXTERNAL DIAMETER	220 cm
HEIGHT	100 cm
WATER CAPACITY	2000 litres
HEATING	integrated wood stove
PEOPLE CAPACITY	8
AIR MASSAGE SYSTEM	16 jets

SHELL COLOR -  
WHITE FROST

SHELL COLOR -  
SHADOW GRAY

### FIBERGLASS SHELL

Our 7 layer shell concept came from long-term experience working in swimming pool production. Its design is innovative, ergonomic and most importantly – comfortable. The shell is produced from hand laminated fiberglass, finished with gelcoat. Its size is optimal for 6-8 persons use and it comes in a choice of colour – grey or white.

### HIDDEN FEATURE -

- Special generation 2 gelcoat is used for better durability and performance of the shell surface

WOOD BURNING HEATER

CHIMNEY WITH A PROTECTION

AISI 316 STEEL STOVE WITH  
4 MM BURNING CHAMBER WALLS

## INTEGRATED 30 KW HEATING SYSTEM

At Rhino Tubs we never compromise on quality, our 30 kW stainless steel stove made from AISI 316 steel. The burning chamber is produced from 4 mm steel to ensure the long life of the system, and comes complete with chimney protection and rain cap. The stove is equipped with an easy access valve for emptying the system.

### HIDDEN FEATURE -

- AISI 316 grade steel supports the usage of pool chemicals and low levels of salt
- Chimney with a protection
- Integrated wood burning heater
- High flow drain tap

SOFT RHINO TUB COVER -  
DARK GRAY

## RHINO TUB COVER

This cover was built to perform. An integrated support frame, high density EPS for thermal insulation anti-algae vacuum protection, an ergonomic design, and a top quality fabric finish, this cover will withstand any conditions.

### HIDDEN FEATURE -

- anti-algae vacuum film protection comes as standard in all our covers

**AISI 304 FRAME SYSTEM AS BASE**

## FRAME SYSTEM

The Rhino Tub is equipped with a structural AISI 304 stainless steel support cross underneath expanding the lifetime of the tub, wherever place it. This support also helps to level the tub during installation, maintaining an even footing throughout its life.

### HIDDEN FEATURE -

- Special support pads are placed on the corners of the frame for easy levelling
- Stainless steel construction

**THERMO WOOD COLOR -  
NATURAL OIL**

## EXTERIOR WOOD FINISH

All our tubs are covered with thermo wood, making them dimensionally stable, but still giving you sensation and smell of a real wood. Extra protection is provided by the paint overcoat, with natural and black finishes available.

Wooden steps and side minibar included.

### HIDDEN FEATURE -

- High endurance steel bands are applied to all our tubs for added durability
- Thermowood in Black finish
- Thermowood in Natural color finish
- Mini bar

**THERMO WOOD COLOR -  
BLACK FINISH**

**STEP ENTRANCE  
FOR EASY ACCESS**

**MINIBAR**

## SYSTEMS

Smaller hot tubs are equipped with 6 massage jets powered by a 0,9 kW pump.

Larger hot tubs are equipped with 8 massage jets powered by a 1,1 kW pump.

These jets are ergonomically placed and their water supply system is optimized for best performance.

All systems are operated via easy access buttons on the side of the tub.

**OPTIONAL** - Our air massage system is powered with a 1,5 kW air blower.

**OPTIONAL** - A filtration system with glass media filter.  
1 RGB LED light included.

### HIDDEN FEATURE -

- Optimized custom built piping to maximize water and air systems

### AIR MASSAGE SYSTEM

- Powered with a 1,5 kW air blower
- 180 cm Rhino Tub has 15 jets
- 200 cm Rhino Tub has 16 jets
- All systems operated with easy access buttons on the side of the tub

**HIDDEN FEATURE** - Optimized piping to maximize flow in water and air systems

### FILTRATION KIT INCLUDES:

- Special inlet and outlet in the tub for connecting the system
- Wood cover ( same color as the tub ) to hide the equipment
- XPERT Top Filter system from ASTRAL with glass media filter, pump, multiport valve and electrical box with timer

**HIDDEN FEATURE** - Wood cover works perfect for snacks and drinks serving

# LOGISTICS

Pools can be delivered through road network using:

## POOL TRAILER

- UP TO 3 POOLS PER TRAILER (1 PIECE 6 M OR SMALLER)
  - 2 POOLS UP TO 8.5 M + 2 PRO SERIES POOLS
  - 2 POOLS BIGGER THEN 7.5 M + 1 PRO POOL
- 

## REGULAR TRUCK TRAILER

- 4 PRO POOLS (ENZO PRO, RIO PRO, JOY PRO)
  - 10 POOLS (ENZO, RIO)
  - 6 POOLS UP TO 3 M WIDTH (ENZO 6, JOY)
- 

## OVERSIZED TRAILER

- UP TO 12 POOLS PER DELIVERY
  - UP TO 5 DIFFERENT POOL MODELS CAN BE COMBINED
  - EQUIPMENT CAN BE ADDED
- 

## FLAT RACK CONTAINERS

- UP TO 30 POOLS PER CONTAINER IF POOL IS UP TO 5 M OR 5 M + 6.5 M
- UP TO 14 POOLS OF ANY SIZE
